Sheet Labels

FOR PRINTING ROLL LABELS

Label Printer

Light to Medium Use

Zebra ZD420

Different Types Available - Thermal transfer printer is best for warehouse setting. Ribbon is required for thermal transfer printing

To Ensure Proper printing - Consult with printer supplier to make sure label stock and ribbon are matched for use with each other and for the printer purchased. SPS will not recommend labels or ribbon.

Recommended for printing smaller quantities of labels at a time.

Configuration required to print from a web browser.
